STAFF REPORT**

Landscape Maintenance

- Treebeard continues to provide landscape maintenance services in a timely manner and within budget. Turf fields have been aerated and fertilized during winter break.
- The center median renovation project has been completed on the east end of Antigua Blvd.

Tree Maintenance

- Tierrasanta Blvd center medians have been safety pruned from I-15 to Rueda Dr.
- Villa Norte Park tree trimming has been completed.
- Safety pruning and unwanted suckers have been removed off Colina Dorada Dr.

Open Space Canyons

- Friends of Tierrasanta continue to treat invasive weeds.
- Dishwasher Pond water has been filled and the level has been maintained.
- The Scour Pond in East Shepard Canyon has a potential construction improvement project in the planning phase. This project is still ongoing. No further updates at this time. No work shall be conducted by any volunteers regarding this location without prior approval.
- San Diego Canyonlands (SDCL) is still pursuing the Rueda Canyon palm removal project, however the proposed flight path and staging areas were not approved by the FAA. Eric Bowlby has identified alternate locations and will be addressing the Tierrasanta Open Space Advisory Committee on January 3rd.
- Mission Trails Regional Park is waiting for a Purchase Order to proceed with the repair of the damaged pipe gate and wood pillars at the park entrance on Clairemont Mesa Blvd.

Miscellaneous

- Wind damage from the recent December storms have left quite a few broken tree limbs and branches. Fortunately, there were no fallen trees or injuries. Treebeard and I spent some time surveying for damage and removing fallen tree branches from streets and sidewalks throughout Tierrasanta.
- Wind damage caused a street light pole to fall on Clairemont Mesa Blvd. west of La Cuenta Dr. This matter has been referred to Streets Division.
- Water levels have risen in Shepherd Canyon from an unidentified source. I investigated along with Treebeard for irrigation leaks or illegal drains, but none were found. James helped identify this issue and the location of the increase in water levels. This matter was reported to the CoSD Storm Water Division and has been further referred to Water Waste Complaints, a division of the Public Utilities Department (PUD), as an Illegal Discharge. Report # 00259503. A crew was sent out to investigate, but I am unaware of their findings. This matter has been referred and is no longer a function of the Tierrasanta Maintenance Assessment District. Please contact Public Utilities Department at (619) 515-3500 or Emergency Services at (619) 515-3525 and reference Ticket #4142753.
- GET-IT-DONE is a valuable tool for reporting many City issues. This form of reporting helps the issue get referred to the correct department to address. I encourage everyone to become familiar with GET-IT-DONE which is available on the City homepage at www.sandiego.gov or available as an application for smartphones.
- Tierrasanta Community Park Phase 2 sports field lighting improvement project will begin soon. No additional information available at this time.
- Some playground structure equipment parts have been ordered. There are no additional updates regarding this. Repairs will be conducted by the City of San Diego Community Parks Division.
