

Draft Charter – TCC Visions and Goals Committee

Purpose

The TCC as the Community Council has an implied obligation to be mindful of the general welfare of Tierrasanta and to explore future changes and improvements. Our community is a great place to live, a fine location and a great reputation. The TCC is in a position to lead efforts to maintain that status. The Vision and Goals Committee is the working group that will provide organization and visibility to that initiative.

Leadership and Membership

The Visions and Goals Committee shall consist of several members of the TCC, including a Committee chair person, and optionally, other residents of Tierrasanta.

Roles and Responsibilities

The Committee shall compile and maintain a catalogue of principles, concerns, issues and proposals that affect the community's quality of life and future improvements. The catalogue shall include items of an ongoing nature, as well as concepts and proposals for possible implementation.

The catalogue will be large and wide ranging. No specific priorities or time lines will be included. Other than the ongoing items, specific projects from the catalogue can be selected by the TCC and/or other individuals for action as appropriate.

The committee will meet as required and solicit additions, revisions or deletions to the catalogue from all sources within Tierrasanta. Annually the committee will provide any proposed catalogue modifications to the TCC. The TCC will approve any changes to the catalogue.

Inclusion. Inclusion in the catalogue does not, by itself, indicate that any specific item is approved for action.

Action. By separate action, the TCC may indicate in the catalogue that certain items are approved for action. Conversely, an item not indicated as approved for action, does not preclude other persons or organizations from taking action.
