SN 40300388481

Steve Muckle, Chair  
Tierrasanta Community Council

Dear Mr. Muckle:

This is regarding the posted speed limit on Tierrasanta Boulevard between the Interstate 15 Highway and Santo Road in the community of Tierrasanta. Local governments must follow the procedures set by the State of California when setting speed limits on public streets. The California Speed Trap Law (California Vehicle Code Section 40802) requires that the City survey the prevailing speeds on classified streets every seven years in order to keep our speed limits radar enforceable under the provisions of the law.

We recently resurveyed the above segment of Tierrasanta Boulevard to establish a legal speed limit. The results of the study indicate that the speed limit for eastbound and westbound directions of traffic on this segment should be posted at 55 miles per hour. This speed limit will be radar enforceable. Accordingly, we will be changing the speed limit in both directions from 35 miles per hour to 55 miles per hour.

It is our practice to notify the community planning groups before changing the speed limits. If you have any questions concerning this action, please contact Laks Vijayakumar (619) 533-3170.

Sincerely,

*HV Lakshminar*
